Let's focus on meadowbirds

The evolution of the meadowbirds

A new approach to agri-environmental delivery

- Focus on creating good **habitat** conditions for rare species (territorial based) instead of activities on farm level
- Groups of **farmers** (collectives) as beneficiaries in order to:
 - enhance effectiveness
 - improve efficiency
 - make better use of local skills and energy
- **Flexibility** to respond to the dynamics of nature

The collective approach - 1

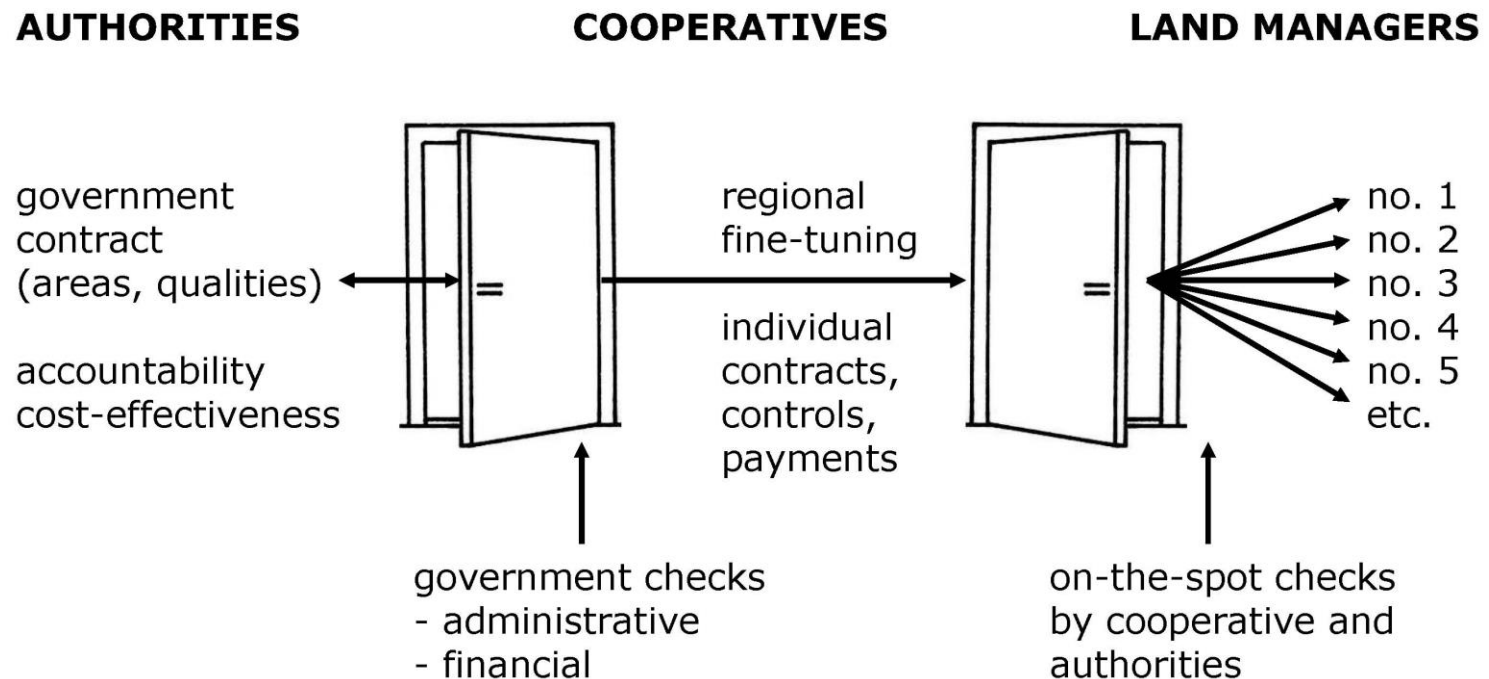

Nature management plan of the collective
(6 yrs) => AECM-commitment

Elements

- min/max surface
- min conditions to preserve habitat
breeding/nesting/feeding
(activities listed in NL-RDP-annex)
- xxx €/ha

The collective approach 2

The collective approach - 3

Administrative implementation
(yearly cycle)

- January location plan: what & where
FLEX: activities / location
- May 15th single application
location of the parcels fixed
FLEX: activities
- Autumn payment declaration
- ex post N/ex ante evaluation N+1

NB

During the year: real-time ICT connection collective ⇔
paying agency

In cooperation with
