

# Cooperazione tra aree rurali

## ANNUNCIO RICERCA PARTNER

<b>Name of the Lag</b>	GAL ANGLONA - ROMANGIA
<b>Title of the project</b>	NET (it means complex, system )
<b>Description of the idea</b>	<p>The project aims to encourage tourism through the development of environmental pathways, wine and agritourism, emphasizing the integration between the natural and environmental resources and agricultural activities and local economies, with a view to protect, develop compatible , better utilization and growth of activity on the network, as a means of mobilizing and stimulating local development.</p> <p>The territory of the LAG Anglona - Romangia lies in the northern center of northern Sardinia territory as a link between two "strong" territories: the north-west area of the Province of Sassari (Sassari - Alghero - Porto Torres) and the north-east area of the Province of Olbia - Tempio.</p> <p>The GAL area in question is influenced by the economic development of the strongest bordering areas but it is mature the belief that the development of the area can also pass through the preservation and development of their "rural" identity. The planned action involves the creation of promotional activities, information, marketing and networking routes, facilities, services and products of the territory around one or more themes shared across borders at the transnational level.</p>
