Flemish

Rural

Network

The Rural Development Programme for Flanders 2007-2013 (Belgium) sees to the development of a rural network. It is the responsibility of this network to gather all partners involved in rural development.

***Mission:
Being the driving force that
generates group dynamics
and gets rural areas on the
move***

Vlaams Ruraal Network

The Flemish Rural Network was assigned the following tasks:

- managing a network of rural actors
- identifying and analysing transferable good practices
- providing information regarding these transferable good practices
- setting up training programmes for local action groups in the process of formation
- organising the exchange of experience and expertise
- providing technical assistance for inter-territorial and transnational cooperation
- taking part in the European Network for Rural Development

Objective 1: sensitization of a wider audience to matters concerning rural development

Objective 2: activation through detecting, analysing and disseminating good practices

Objective 3: support by passing on general and subject-related information

Target groups:
rural actors
beneficiaries
farmers
civil society
authorities...
