Cooperaction day

TOURISM

Name of the LAG	Colli Esini San Vicino Soc. cons. a r.l.
Title of the projects	Marketing and promotion of rural villages in the Marche inner areas
Description of the idea	The project aims to strengthen the tourist offer of the rural areas, by valorizing the system of the small historical villages. It constitutes the historical territorial armor of many rural and mountains areas, representing a peculiarity and a heritage of exceptional value (environmental, landscape, historical, architectonic) that because of its abandonment it takes a concrete chance of progressive, but quick, disappearing. As a result of the studies lead within Leader+ Initiative (census of the villages, the urban-planning analysis of 10 case studies, the setting of an economic model for the recovery and the valorization) we agree to give rise to a promoting and marketing action at national and international level, aimed to make grow the interest around this heritage and to stimulate coherent investments with the model and the identified criteria.
Existing partnership	GAL Colli Esini San Vicino, GAL Sibilla, GAL Montefeltro, GAL Flaminia Cesano, GAL Piceno
Partners serached	LAGs in Europe

Cooperazione *tra aree rurali*

Cooperation day

TOURISM

Name of the LAG	Colli Esini San Vicino" Soc. cons. a r.l.
Title of the project	Strategy for a development of the sustainable tourism in the territory of the protected areas
Description of the idea	<p>The European Charter for Sustainable Tourism (ECST) is a tool devised by Europarc Federation for the Protected Areas that means to engage in the development of a sustainable tourism compliant of the natural and cultural resources of the places. The Park that adheres to the "European Charter of the Sustainable Tourism" aims to work with the local actors to a more sustainable development of the tourism in its territory, that considers the environmental, social and economic impacts which tourism can generate and the needs of the visitors (current and potential), of the enterprises, of the environment and of the local people. Such strategy demands an active role of the Park in local tourist politics and the strengthening of the cooperation forms and Co-planning among the local actors. In order to define its own strategy, the Park must pursue the increase of the sense of local identity and of the knowledge of the local resources from the visitors, the improvement of the quality of territory and of life. Therefore, with the project we aim:</p> <ul style="list-style-type: none"> - to promote forms of shared planning and of partnership among the various socio-economic actors, by identifying development lines for a sustainable tourism and a programme of actions - to arrange a communication tool in order to make accessible and to share the adopted strategy in order to carry out a role of inner and external marketing - to identify the involved actors and to conduct a census of the territory resources according to the logic of the tourist row, connoting the tourist and the visitor of the Park through the behaviors, styles of life and tendency to the expenses - to verify the coherence of the tourist offer on the territory of the Park in relation to the principles of the Charter.

TURISMO

Nome del GAL	Gal Valle Del Crocchio
Titolo del progetto	Turismo rurale di qualità': valorizzazione aree archeologiche
Descrizione dell'idea	<p>Creare un modello efficace di cooperazione interterritoriale, individuare strategie di valorizzazione dei beni appartenenti al patrimonio paesaggistico, storico, archeologico, artistico e culturale, favorire rapporti di collaborazione per attività didattiche, di ricerca, di mobilità studentesca, incentivare politiche di sostegno economico e sociale, promuovere lo scambio e l'integrazione nell'ottica della creazione di un sistema integrato di partecipazione attraverso il confronto tra le esperienze di governance più significative realizzate nell'ambito dei rispettivi territori. Pertanto l'intento è quello finalizzato alla realizzazione di un processo di valorizzazione dell'intera area GAL che porti alla fruibilità delle importanti aree archeologiche presenti sul territorio. A partire da questi siti il progetto mira a costruire una proposta di fruizione che tenga conto della polisemicità del territorio, pregevole anche per altre tipologie di beni culturali, per le risorse ambientali, per le tipicità enogastronomiche e artigianali</p>
Partenariato esistente	Soprintendenza per i Beni Archeologici della Calabria, Università della Calabria - Centro Herakles per il turismo culturale, Regione Sicilia Assessorato Regionale dei Beni Culturali e dell'Identità Siciliana, Centro Regionale per la Progettazione e il Restauro di Palermo

Name of the Lag	Gal Monti Reventino Soc. Coop. Ar.L. – Calabria - Italia
Title of the project	R.E.D. – Excellence Network of the Rural Districts
Description of the idea	The so-called RED Project (“RED” means in Italian “Excellence Network of the Rural Districts”) is an enterprise created by a group of Italian GALs, in which the GAL Reventino is the leader (please look at the attached file), whose aim is to explore, by means of a strict comparison among different realities, the possibility to create a set of instruments which would predispose a benchmarking way for an always new and innovative evolution of the GALs themselves toward a steady organizational union form in order to support the rural development of each area. The main aim is to create a system made of the best experiences and good practices that can be observed both in the national Italian context and in the EU countries where unions exist, which are assimilable to each other (as said before), in order to create a co-operation network for informational exchange and best practice.

Nome del Gal	Cilento Regeneratio Srl
Titolo del progetto	RIGENERAZIONE & SVILUPPO
Descrizione dell'idea	<p>La Strategia di Sviluppo Locale del Gruppo di Azione Locale Cilento Regeneratio (Soggetto Capofila del progetto di Cooperazione Interterritoriale) è incentrata sull'implementazione di un modello innovativo di sviluppo locale basato sul "turismo rigenerativo", motore ed anima per le aree rurali collinari interne del PARCO NAZIONALE DEL CILENTO.</p> <p>La ruralità delle aree, congiuntamente alle caratteristiche sociali, culturali ed ambientali, favorirebbero la rigenerazione psico-fisica e spirituale, sinonimo di "rinascita", intesa, da un lato, come recupero del benessere psico-fisico e spirituale dell'uomo moderno che, pressato dai ritmi frenetici, è spesso soggetto a problemi di ansie, stress, depressioni e malattie simili, dall'altro, come riqualificazione dell'identità storica, culturale ed ambientale del territorio cilentano. Questo progetto di cooperazione interterritoriale si propone di incrementare e consolidare il concetto di rigenerazione e sviluppo insieme, accrescendo la cultura reale di "qualità della vita".</p>
Partner esistenti	GAL Valle del Crocchio, GaL Appennino Bolognese, CIRPA (Centro Interuniversitario di Ricerca sulla Psicologia Ambientale) dell'Università della Sapienza di Roma l' ONU per i paesi in via di sviluppo (Progetto ISL LEDA).

Name of the LAG:	Pays Voironnais
Title of the project	Bees and biodiversity: together to stop pollinating insects decline and protect biodiversity
Description of the idea	<p>Survival of over 80% of plants species depends directly on pollinating insects, and most particularly on bees. Honey bee colony losses that are being observed worldwide are therefore raising great ecological and economic concerns. The goal of the project is therefore to work together with local and European partners to develop a common strategy aiming at protecting pollinating insects and biodiversity.</p> <p>Common work could lead to actions like :</p> <ul style="list-style-type: none"> - Promoting environmental friendly practices in the fields of agriculture, green area maintenance ... - Leading awareness raising actions towards urban and rural populations on the importance of honey bees protection - Organizing events and meetings,

Name of the LAG	GAL Sulcis Iglesiente Capoterra e Campidano di Cagliari
Title of the project	MeDIETerranea: the Mediterranean Diet and the enhancement of traditional produce
Description of the idea	<p>Recently the Unesco has recognized the "Mediterranea Diet" as an immaterial world-wide heritage of the humanity. The European Commission and some European and Mediterranean countries have strongly supported this initiative. The fundamental matter is that the Mediterranean diet is not only considered as food. It is a philosophy and a way of life, eco-friendly, love for the traditions, and research of the roots of the good food but also "right".</p> <p>The project aims to improve the promotion and commercialization of traditional produce, via means of a strong collaboration between producers and tourism operators on one side and between the participating territories on the other.</p> <p>The project furthermore, aims to diffuse forms of sustainable tourism that allows tourists to see, taste and purchase traditional produce whilst learning about the traditional production techniques.</p>

LOCAL PRODUCTS / TOURISM

Name of the LAG	Colli Esini San Vicino” Soc. cons. a r.l.
Title of the project	PROMOLAND: project for the experimentation of innovative promoting methodologies of the territories and products.
Description of the idea	<p>The overall objective of the project is to improve the promoting ability of the territory through the introduction of best practices relating to innovative activities within the promotion of the territories and the products already experienced in other European contexts. The LAG has at this point matured some experiences about the territorial marketing tying the products to the territories. But these activities risk to remain patrimony of a single territory or to be inefficient due to the small scale.</p> <p>We want therefore to valorize, to put the innovative practices and to create a critical mass in order to make the offer credible on the international markets.</p> <p>The selected best practices will channel to a common promoting action even through WEB and WEB 2,0 tools which have the characteristic of an integrated offer (territory/product).</p>
