# REPORTING COM PROPOSAL ↔ SIMPLIFIED REPORTING

- O8 Number of farmers covered by supported crisis prevention and risk management instruments
- O13 Number of ha (agricultural) covered by environmental/climate commitments
- O18 Number of supported on-farm productive investments
- O20 Number of supported non-productive investments
- O21 Number of off-farm productive investments
- O34 Number of promotion and information actions
- O.34a Number of actions supported in the wine sector

# Definition

**The total number of operations in the wine sector paid in the Financial Year concerned.**

- The number of operations in the Financial Year concerned shall be reported **per intervention**.
- If for one intervention several unit amounts are defined, the number of operations **per unit amount** shall be reported.

# Operation

- **An operation is defined as the series of actions intended to achieve the objective of the corresponding intervention. (Inspired by the legislation for restructuring of vineyards in Article 1.3 of Commission Delegated Regulation (EU) 2016/1149)**

## *Nomenclature*

**Today: Measure-> Operation-> Action**

**CSPR: Intervention-> Operation-> Action**

# Methodology

- **The level of detail to be submitted in the APR should mirror the regulation (intervention level for all the interventions except for promotion for which the operations have been defined in the SPR).**

# Example

- Example on reporting for wine interventions in a given MS (O.34a and O.3)
