# SPAIN'S MAIN CHALLENGES FOR 2014-2020

## Spanish position paper

---

1. Low competitiveness of SMEs and their scarce presence in international markets;
2. Weak research and innovation system and the insufficient private-sector participation;
3. High overall and youth unemployment, low labour productivity and increasing poverty and social exclusion;
4. Inefficient use of natural resources.

# Funding priorities for Spain

## Challenge 1

### Low competitiveness of SMEs and their scarce presence in international markets.

THEMATIC OBJECTIVE	RURAL DEVELOPMENT PRIORITY	FOCUS AREA	KEY ACTIONS
<b>2</b> Information and communication technologies	<b>6</b> Social inclusion, poverty reduction and economic development	<b>6C</b>	<ul style="list-style-type: none"> <li>To develop broad band tech in rural areas</li> <li>To foster the use of NTC</li> <li>Investments in small internet infrastructures</li> </ul>
<b>3</b> Competitiveness of SMEs, agriculture and fisheries	<b>2</b> Competitiveness of all types of agriculture and farm viability	<b>2A</b>	<ul style="list-style-type: none"> <li>Investments in holdings with structural problems</li> <li>Improving NTC use</li> </ul>
		<b>2B</b>	<ul style="list-style-type: none"> <li>New enterprises set up by young farmers</li> </ul>
	<b>3</b> Food chain organisation and risk management	<b>3A</b>	<ul style="list-style-type: none"> <li>Improve integration of farmers in the comercialization chains</li> <li>Comercialization Networking</li> </ul>

  2. Main challenges for Spain.
  - 3. Spanish position on CAP Reform: EAFRD proposal 2014-2020.**
  4. Cronogram.

## SPANISH POSITION TOP TEN ELEMENTS (1)

---

1. **PROGRAMMING**.- Flexibility for coexistence of national and regional programmes.
2. Coordinating body for managing authorities of regional programmes.
3. Application of N+2 rule at Member State level
4. **EAFRD DISTRIBUTION**.- To maintain the actual level of participation of EAFRD. Distribution based on objective criteria and past performance.
5. **EAFRD CONTRIBUTION**.- 75% of cofinancing for transition regions. Maximum cofinancing rates for environmental measures.

## SPANISH POSITION TOP TEN ELEMENTS (2)

---

6. **INVESTMENTS**.- Investments in irrigation.

7. **MINIMUM EXPENDITURE OF 25% FOR AGRI-ENVIRONMENT-CLIMATE MEASURES**.- In case it will be approved, it should contain all the environmental measures (Natura 2000, WFD, Forestry).

8. **STATE AID**.- Simplification of notification procedure.

9. **INSURANCE SYSTEM**.- To guarantee our current insurance system.

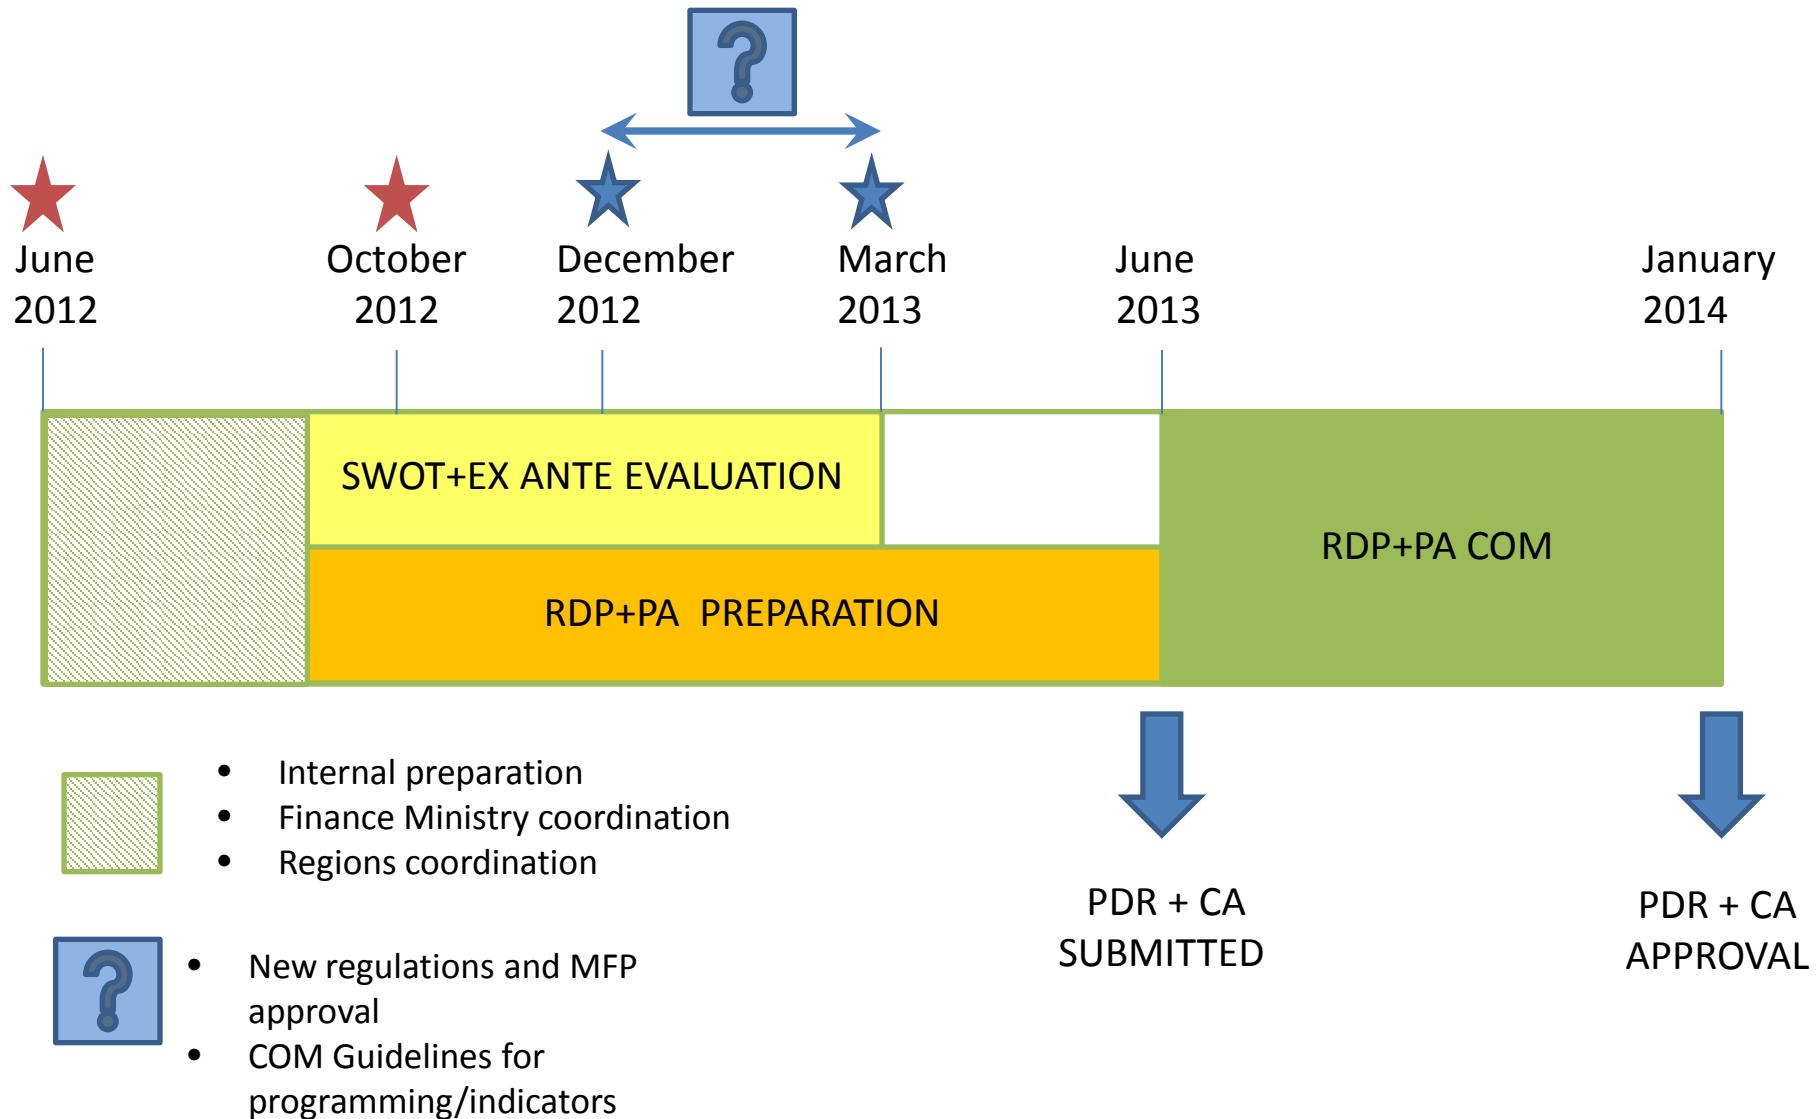

10. **LEADER**.- Simplification.

**GRAZIE MILLE**

- 1) a short summary of the state of debate on the reform process and the national positions with regard to it;
  - 2) a specific focus on the programming framework (Partnership agreement and RDP) you are going to follow, especially with reference to the role of the Partnership agreement, the number of programmes and the eventual joint presence of national and regional programmes, the type of national programmes you are planning at the present moment and the debate among institutions on this issue;
  - 3) this helps you to connect to the EC Position paper. What is your reaction to the national Position Paper prepared by EC? How do the six RD priorities fit into the eleven thematic objectives? Which are your main priorities in relation to those proposed by EC?
  - 4) finally, what is the national timescale for the programming preparation in 2013 in your country? Have you already set the main phases of the preparation process?
- I wish to remind you that the available time of your speech is possibly not longer than 20 minutes.
