

1. DIFFERENT TIMING IN DECISION MAKING AND DIFFERENT ADMINISTRATIVE RULES

1.1. Different timing in decision-making

1.2. Absence of preparatory technical support

1.3. Differences in the maximum level of funding

1.4. Differences in documentation requirements

A. Solutions that could be implemented during the current programming period

B. Solutions that could be implemented in the next programming period (by harmonizing the rules in all member states)

4. WHAT ARE THE KEY AREAS IN WHICH COOPERATION PROJECTS ARE MOST NEEDED?

- Actions in which bottom-up approach gives better result than top-down approach**
- Actions in which small-scale activities and local knowledge/ locally defined needs and objectives give better results than large projects**
- Practical examples?**
- More ideas to be discussed...**
