

# ONLINE GOOD PRACTICE WORKSHOP

## IMPROVING DATA MANAGEMENT AND INFORMATION SYSTEMS FOR THE PURPOSE OF CAP EVALUATIONS

16-17 MARCH 2021

ONLINE

### BACKGROUND

The ENRD Evaluation Helpdesk is pleased to invite you to the online Good Practice Workshop, 'Improving data management and information systems for the purpose of CAP evaluation'. The workshop will be conducted as a web-based participatory workshop on 16-17 March 2021.

Issues related to the proper functioning of data management and information systems especially related to their efficiency and quality are frequently encountered by Member States. For this reason, it is important to take stock of existing experiences with the aim to answer the overarching questions:

- What worked well and what were the challenges in 2014-2020 in relation to data management?
- What can we learn from EU-level projects and Member State's experiences in the field of data management and information systems for evaluation, including, where relevant, using and combining FADN, IACS and other databases/ data sources?
- What are innovative data collection and processing methods that can be used for evaluations in the context of the CAP?

### OBJECTIVES

The Good Practice Workshop (GPW) has the overall objective to reflect on innovative experiences in relation to data management and information systems for evaluations in the context of the CAP. In this context the aim will be to:

- Exchange experiences from existing research projects/studies and data management practices at the EU and Member State levels to identify useful elements and innovative approaches that can help improve data management and information systems.
- Discuss specific issues/criteria that can facilitate or hamper the incorporation/transfer of identified approaches into data management and information systems at the Member State level.
- Identify needs for further support for Managing Authorities and Paying Agencies, but also, for evaluators and data providers in relation to the above issues for improving data management and information systems for the ex post evaluation and future CAP evaluations.

### TARGET AUDIENCE

The workshop will be an opportunity to bring together evaluation practitioners like Managing Authorities, Paying Agencies, evaluators, researchers and other evaluation stakeholders in the Member States as well as EU-level evaluation experts and researchers to discuss, share concerns and exchange experiences.

**Working language will be English.**

Registration will be open until  
9 March 2021

### T U E S D A Y 1 6 M A R C H

8:45 Welcoming participants and opening 'online' networking space

#### Setting the frame

9:30 Introduction and context (DG AGRI, Unit C4 and Evaluation Helpdesk)

- Challenges and issues related to data management and information systems
- Overview of EU-level projects in this field
- Complementarities/links with other Helpdesk activities

#### Sharing experiences and developing practical suggestions

10:00 Experiences from EU-level projects bringing innovation into data management systems, such as, IACS (e.g. Sen4CAP, NIVA)

11:00 *Virtual Coffee Break*

11:15 The practitioners' view: experiences from Member States that piloted the above projects

11:45 Group discussion on relevance for monitoring and evaluation purposes

12:45 Final remarks

13:00 *End of Day*

### W E D N E S D A Y 1 7 M A R C H

9:30 Welcoming to Day 2

*Introduction and agenda of Day 2, key lessons from Day 1 (Evaluation Helpdesk)*

#### Sharing experiences and developing practical suggestions

10:00 Experiences from EU-level projects aiming to improve the scope and quality of indicators for evaluation of the CAP (e.g. FLINT, MEF4CAP, Verify)

11:00 *Virtual Coffee Break*

11:15 The practitioners' view: experiences from Member States that piloted the above projects

11:45 Group discussion on relevance for monitoring and evaluation purposes

12:45 Concluding remarks

13:00 *End of Day*
