 $<sup>^{\</sup>text{MO}}$ : For Monitoring Only. These Output Indicators will not be used for clearance but exclusively for monitoring.

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.1 Number of European Innovation Partnership (EIP) operational group projects
Definition	The total number of EIP Operational Group (OG) projects that receive support under one or more of the interventions set out in the CAP strategic plan in the Financial Year concerned.
Types of intervention concerned	The following type of intervention is concerned:  • Cooperation to prepare or implement EIP OG projects in accordance with Article 114 (Article 71)
Methodology	The number of EIP OG projects, receiving a payment in the Financial Year concerned, should be reported <b>by unit amount</b> .
	If only a part of the committed amount for an operation was paid in the Financial Year concerned, only a partial output is to be reported (see cover note).
Methodology for the	The following aggregates should be provided:
aggregated values	- The total number of operational group projects supported by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)
	Remark:
	For these aggregates, there should be <u>no double counting</u> .
Unit of measurement	Number of OG projects
Comments/caveats	The preparation of the OG project counts as a separate operation and can be paid as soon as it is finished and a project proposal is ready for selection. The implementation of the OG project (after selecting it) is another operation. So it is possible to pay for the preparation operation only, and before the project itself is finished.
	There is always a one-to-one relationship between an EIP OG and its innovative project. An EIP OG can run one project only: the objectives and activities of the OG project are distinctive for that OG. Thus, two different projects are always run by two different EIP OGs, no matter the OG's composition. Note that a group who did/is doing an OG project is allowed to do further OG projects, without a need to change partners.

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.2 Number of advice actions or units to provide innovation support for preparing or implementing European Innovation Partnership (EIP) operational group projects
Definition	Number of advice actions or other units (e.g. number of advisors) to help for preparing and/or implementing EIP Operational Group (OG) projects paid in the Financial Year concerned (excluding other type of advice actions reported under O.33).
Types of intervention concerned	Only the following type of intervention is concerned:
Concerned	Knowledge exchange and information (Article 72)
	This indicator concerns support for advice for innovation purposes incentivising emergence and running of the EIP OG project. This support refers either to the project preparation period or to the facilitation during the project implementation of the EIP OG project (or both), and <u>only</u> if the advisor is not paid by the OG project budget (Article 71), but by an intervention under Article 72.
Methodology	The advice actions or other units, paid in the Financial Year concerned, in the frame of innovation support under Article 72, shall be reported <b>per unit amount</b> .
	If only a part of the committed amount for an operation was paid in the Financial Year concerned only a partial output is to be reported (see cover note).
Methodology for the	Following aggregates should be provided:
aggregated values	<ul> <li>The total number of actions or units paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> </ul>
	The total number of advice actions paid to provide innovation support
	<ul> <li>The total number for each supported unit (other than advice actions and advisors)</li> </ul>
	<ul> <li>The total number of advisors (this aggregate covers all actions, included those paid in advice actions or other units)</li> </ul>
	Remark:
	For the first three aggregates, there should be <u>no double counting</u> . For advisors double counting is allowed, to avoid high administrative burden.
Unit of measurement	Number of advice actions, advisors or other units
Comments/caveats	The rationale for this indicator is to measure specific advisory efforts under Article 72 to incentivise innovation, e.g. those in accordance with
	Article 13(4)(e), i.e. an advisor delivering "innovation support in particular
	for preparing and for implementing OG projects". Examples could be
	providing specific advisory services for innovation support, such as
	coaching farmers towards innovation on their farm, managing an

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Output indicators 17/09/2021	
	innovation hub, which helps setting up of facilitating OG innovative projects, training advisors for innovation support.
	Support to advisors under Article 71 as part of the funding for the OG project is not included here. This is covered under O.1, because the advisor in that case is paid from the OG project budget.

#### DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.3 <sup>MO</sup> Number of CAP support beneficiaries
Definition	The number of CAP support beneficiaries in a Member State i.e. that
	received support in the Financial Year concerned under one or more of
	the interventions set out in the CAP strategic plan.
Types of interventions	The following types of interventions are concerned:
concerned	All CAP interventions set out in the CAP strategic plan by the MS, i.e.:
	direct payments
	rural development
	sectoral types of interventions
Methodology	Number of beneficiaries who received a payment in Financial Year, <b>per</b>
	<b>intervention</b> and per type of intervention (without double counting).
	For direct payments, beneficiaries are defined in Article 3(a).
	For rural development, beneficiaries are defined in Article 3(h).
Methodology for aggregates	The following aggregates should be provided:
<u> </u>	The total number of farmers receiving directly support, broken
	down by:
	o male
	o female
	o non-binary¹
	The total number of farmers beneficiaries of direct payments
	(Chapter II of Title III)
	Remarks:
	For these aggregates beneficiaries are accounted in full and there should
	be <u>no double counting</u> : i.e. where a beneficiary benefits from multiple
	interventions, that beneficiary should be counted only once in the
	aggregate.
	If the beneficiary is a group of natural persons, a legal person or a group
	of legal persons, the sex of the main holder/manager of the farm is
	reported.
	The main holder/manager refers to the person who enjoys the decision-
	making power in relation to the agricultural activities exercised on the
	farm and who bears benefits and financial risks related to those activities.
	Only farmers directly receiving financial support are reported here. In other words, farmers benefitting indirectly from CAP support through
	actions of producer organisations (PO), training and advice actions,
	projects implemented under Local Development Strategies (CLLD/Leader),
	mutual fund and financial instruments are not taken into account in this
	mattair rand and infantial instruments are not taken into account in this

<sup>&</sup>lt;sup>1</sup> A number of Member States have legal provisions or practices recognising that individuals may not fall into male and female categories or may not wish to be associated with one of them. For these Member States, these individuals shall be recorded as "non-binary".

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

	indicator.
Unit of measurement	Number of beneficiaries
Comments/caveats	<ul> <li>The detailed information by intervention and type of intervention relates to all direct beneficiaries of CAP support (not only farmers).</li> <li>By contrast, the aggregated figures for direct beneficiaries of total CAP support and direct payments relate only to farmers.</li> <li>In order to provide these data there will be a need for a unique identifier of each beneficiary (used for all support applications) to avoid double counting between Direct Payments, Rural Development and sectoral types of interventions in IACS.</li> <li>Beekeepers are not accounted as farmers, i.e. they are not accounted in the aggregate.</li> <li>This indicator is not used for performance clearance.</li> </ul>

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.4 Number of hectares for basic income support for sustainability
Definition	The number of hectares paid for the interventions under basic income support for sustainability in the Financial Year concerned.
Types of intervention concerned	<ul> <li>The following type of interventions are concerned:</li> <li>The Basic income support for sustainability (BISS) including the round-sum payment for small farmers (Section 2, Subsection 2)</li> </ul>
Methodology	The number of hectares, paid in Financial Year concerned, shall be reported <b>per intervention unit amount</b> .
Methodology for the	The following aggregates should be provided:
aggregated values	- The total number of hectares for basic income support for sustainability (i.e. the area paid after applying the entitlements)
	- The total number of hectares for decoupled Direct Payments taken together (i.e. for MS without entitlements, the area paid <sup>2</sup> for decoupled Direct Payments; for MS with entitlements, the number of eligible hectares for direct payments, as defined in accordance with Article 4(c) held by beneficiaries of BISS (including round sum) (before taking into account the entitlements <sup>3</sup> )
	Remark: For these aggregates hectares are accounted in full, there should be no double counting: i.e. where the same hectare benefits from support under multiple decoupled direct payments interventions, that hectare should be counted only once for the aggregate.
Unit of measurement	Number of hectares
Comments/caveats	

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

<sup>&</sup>lt;sup>2</sup> This is equivalent to the area determined as eligible for payment after controls and before penalties.

<sup>&</sup>lt;sup>3</sup> It is used instead of the paid area as direct payments contribute to the support of the income of the whole farm whether the farmer has entitlements for its whole area or part of it. It also simplifies the calculation without double counting by allowing for geospatial location of all hectares under BISS.

Indicator name	O.5 Number of beneficiaries or hectares of payments for small farmers
Definition	The number of CAP support beneficiaries or hectares in a Member State that received support in the Financial Year concerned for the payments for small farmers.
Types of interventions	The following type of interventions is concerned:
concerned	The payment for small farmers (Section 2, Subsection 2)
Methodology	The number of beneficiaries or hectares of payments for small farmers intervention in Financial Year concerned shall be reported <b>per unit amount</b> .
	If exceptionally the payment for small farmers was not entirely paid within the Financial Year, beneficiaries or hectares should be counted in proportion to the share of payment for the purpose of the performance clearance (see comments/caveats).
Methodology for the aggregated values	The following aggregate should be provided:  - The total number of beneficiaries of the payments for small farmers (accounted in full)  - The total number of hectares paid for the payments for small farmers
	Remark:
	For these aggregates, beneficiaries or hectares are accounted in full. They cover all the payments for small farmers (i.e. those paid per beneficiary and those paid per hectare). In addition, there should be <u>no double counting</u> .
Unit of measurement	Number of beneficiaries or hectares
Comments/caveats	The partial number of beneficiaries or hectares to be reported corresponds to the share of the payment in the Financial Year concerned in the total amount to be paid. For example, for a small farmer receiving only 90% of the payment in the Financial Year concerned, the reported output is 0.9.
	By contrast, for the aggregated values, the beneficiaries and the hectares of the payments for small farmers are accounted in full.

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.6 Number of hectares subject to complementary income support for young farmers
Definition	The number of hectares paid under complementary income support for young farmers in the Financial Year concerned.
Types of intervention	The following type of intervention is concerned:
concerned	<ul> <li>The complementary income support for young farmers (Article 27)</li> </ul>
Methodology	The number of hectares paid in the Financial Year concerned shall be reported <b>per unit amount</b> .
Methodology for the aggregated values	The following aggregate should be provided:  - The total number of hectares for complementary income support for young farmers (i.e. the area paid)
	<b>Remark:</b> For this aggregate hectares are accounted in full and there should be <u>no</u> double counting.
Unit of measurement	Number of hectares
Comments/caveats	

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.7 Number of hectares for complementary redistributive income support
Definition	The number of hectares paid under complementary income support
	for sustainability (CRISS) in the Financial Year concerned.
Types of intervention	The following type of intervention is concerned:
concerned	<ul> <li>The complementary redistributive income support for</li> </ul>
	sustainability (CRISS) (Article 26)
Methodology	The number of hectares paid in the Financial Year concerned shall be
	reported <b>per unit amount.</b>
Methodology for the	The following aggregate should be provided:
aggregated values	- The total number of hectares for complementary redistributive income support for sustainability (CRISS) (i.e. the area paid)
	Remark:
	For this aggregate hectares are accounted in full and there should be no double counting.
Unit of measurement	Number of hectares
Comments/caveats	

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.8 Number of units (hectares or livestock units) for eco-schemes
Definition	The number of units (hectares or livestock units) paid under the schemes for the climate and environment (eco-schemes) in the Financial Year concerned.
Types of intervention concerned	<ul> <li>The following type of intervention is concerned:</li> <li>The schemes for the climate and environment (eco schemes)         (Article 28)     </li> </ul>
Methodology	The number of units (hectares or livestock units) paid in the Financial Year concerned shall be reported <b>per intervention unit amount</b> .
Methodology for the	The following aggregates should be provided :
aggregated values	- The total number of hectares/livestock units paid by intervention and by unit (if relevant, i.e. when within one intervention several unit amounts are defined)
	- The total number of hectares supported with eco-schemes (i.e. the area under commitment <sup>4</sup> )
	- The total number of livestock units supported with eco-schemes (i.e. the livestock units under commitment)
	Remark:
	For these aggregates, hectares and livestock are accounted in full. In addition, there should be <u>no double counting</u> : i.e. where the same hectare benefits from support under multiple eco-schemes interventions, that hectare should be counted only once for the aggregate.
	For livestock units the double counting should be avoided, relying on the unique ID of beneficiaries.
Unit of measurement	Number of hectares or livestock units
Comments/caveats	The payment for livestock units may apply in case of animal welfare commitments, commitments addressing antimicrobial resistance and, if duly justified, commitments for practices beneficial for climate.  The coefficients to convert animal numbers in Livestock Units are available in the cover note.

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

<sup>&</sup>lt;sup>4</sup> In case Member States apply limits or ceilings e.g. a system of degressivity of payments potentially leading to divergences between the area paid and the coverage of the commitments, the area determined after controls and before applying any limits is to be reported in the aggregate without double counting.

Indicator name	O.9 Number of units covered by supported CAP risk management tools
Definition	The total number of units covered in the Financial Year concerned by CAP risk management tools.
Types of intervention	The following interventions are concerned:
concerned	Risk management tools (Article 70)
	If financial instruments are used to provide farmers with working capital, the output should be reported here.
Methodology	The number of units paid in the Financial Year concerned, shall be
	reported <b>per intervention unit amount</b> .
	If only a partial payment was made in the Financial Year concerned, only a partial output is to be reported (see cover note).
Methodology for the	The following aggregates should be provided:
aggregated values	<ul> <li>The total number of units supported by CAP risk management tools by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> <li>The total number of farmers covered by supported insurance scheme</li> <li>The total number of mutual funds covered by risk management support</li> <li>The total number of farmers covered by supported risk management schemes other than insurances and mutual funds</li> <li>The total number of farmers covered by financial instruments for risk management purposes.</li> </ul>
	Remark:
	Mutual funds and farmers are accounted in full in the aggregates.
	Double counting should be avoided, as far as possible.
Unit of measurement	Number of units (e.g. farmers, funds)
Comments/caveats	If insurance schemes are paid per hectare, the covered number of farmers should nevertheless be accounted in the aggregate.

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.10 Number of hectares benefitting from coupled income support
Definition	The number of hectares paid under each area-related Coupled Income Support (CIS) intervention in the Financial Year concerned.
	For interventions under coupled income support that target oilseed crops covered by the Blair House Agreement, the area for which support has been actually paid should be reported as a separate output pursuant to Article 33(4).
Types of intervention concerned	All area-related interventions under CIS (Section 3, Subsection 1)
Methodology	The number of hectares, paid in the Financial Year concerned, shall be reported <b>for each</b> area-related CIS <b>intervention</b> . In case within one CIS intervention several unit amounts are defined (e.g. by farm size), the number of hectares paid <b>per unit amount</b> shall be reported.
Methodology for the aggregated values	<ul> <li>Following aggregates should be provided:</li> <li>The total number of hectares paid by intervention (if relevant, i.e. when within intervention several unit amounts are defined)</li> <li>The total number of hectares for groups of CIS interventions covering the same sector (i.e. the area paid for CIS, per sector). The sectors are set out in Article 30.</li> <li>The total number of hectares under CIS interventions</li> <li>Remark:</li> <li>For these aggregates hectares are accounted in full and there should be</li> </ul>
	no double counting: i.e. where the same hectare benefits from support under multiple coupled income support interventions, that hectare should be counted only once for the aggregate.
Unit of measurement	Number of hectares
Comments/caveats	It is possible for Member States to pay on the basis of units other than hectares, where appropriate (e.g. acres; decares; etc). However, planning in the CAP plan and reporting in the annual performance report should be done based on the number of hectares.

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.11 Number of heads benefitting from coupled income support
Definition	The number of heads paid for the interventions under each animal-related Coupled Income Support (CIS) intervention in the Financial Year concerned.
Types of intervention concerned	All animal-related interventions under CIS (Section 3, Subsection 1)
Methodology	The number of heads paid in the Financial Year concerned should be reported for each animal-related CIS intervention.
	In case within one CIS intervention several unit amounts are defined (e.g. by herd size), the number of heads paid <b>per unit amount</b> shall be reported.
Methodology for the	Following aggregates should be provided:
aggregated values	- The total number of heads paid for animal-related CIS <b>per sector</b> (i.e. the number of heads paid for coupled income support, without double counting, in each sector).  The sectors are set out in Article 30.
	Remark:
	For these aggregates heads are accounted in full and there should be no double counting
Unit of measurement	Number of heads
	Exception: kg of cocoons for silkworms
Comments/caveats	It is possible for Member States to pay on the basis of unit other than heads of animals, where appropriate (e.g. livestock units). However, planning in the CAP plan and reporting the annual performance report should be done based on a number of heads. In such cases, a conversion key between the unit for payment (LU) and the number of heads should be defined and used consistently.

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.12 Number of hectares receiving support for areas facing natural or other specific constraints, including a breakdown per type of areas
Definition	The number of hectares paid under natural or other area-specific constraints interventions, in the Financial Year concerned.
Types of intervention concerned	The following types of interventions are concerned:  • Natural or other area-specific constraints (Article 66)
Methodology	The number of hectares, paid in Financial Year concerned, shall be reported for the 3 area categories designated pursuant to Article 32 of Regulation (EU) No 1305/2013, covered by an intervention in the CAP strategic plan:
	(a) mountain areas; (b) areas, other than mountain areas, facing significant natural constraints; and
	(c) other areas affected by specific constraints.  In case within one intervention several unit amounts are defined, the number of hectares paid shall be reported <b>per unit amount</b> .
	If only a partial payment was made in the Financial Year concerned, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:</li> <li>The total number of hectares of mountain area paid in the Financial Year concerned.</li> <li>The total number of hectares of areas, other than mountain areas, facing significant natural constraints paid in the Financial Year concerned.</li> <li>The total number of hectares of other areas affected by specific constraints paid in the Financial Year concerned.</li> <li>The total number of hectares paid under Natural or other areaspecific constraints, in the Financial Year concerned</li> </ul>
	Remark: For these aggregates hectares are accounted in full and there should be
	no double counting.
Unit of measurement	Number of hectares
Comments/caveats	

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). Indicator name	O.14 Number of hectares (excluding forestry) or number of other units covered by environment/climate commitments going beyond mandatory requirements
Definition	The total number of hectares (excluding forestry) covered by environment/climate commitments going beyond mandatory requirements and specified in the CAP Strategic Plans, for which a payment was made in the Financial Year concerned. In special cases, if the support is granted as a lump sum, the number of beneficiaries is reported.
Types of intervention concerned	The following types of interventions are concerned:  • Environmental, climate and other management commitments (Article 65): payments for environment/climate commitments.
Methodology	The number of hectares or other units paid in the Financial Year concerned shall be reported <b>per unit amount</b> .  In case within one intervention several unit amounts are defined, the number of hectares or other units paid shall be reported <b>per unit amount</b> . If only a partial payment was made in the Financial Year concerned, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:         <ul> <li>The total number of hectares paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> <li>The number of hectares (excluding forestry) under environmental or climate commitments (the area under commitments<sup>5</sup>). This aggregate covers the number of hectares of the farms, which are granted the support as a lump sum.</li> <li>Total number for each supported unit (other than hectares) under environmental or climate commitments going beyond mandatory requirements</li> </ul> </li> <li>Remark:         <ul> <li>For these aggregates, there should be no double counting: i.e. where the same hectare benefits from support under multiple environmental or climate commitments, that hectare should be counted only once for the aggregate.</li> <li>Units are accounted in full in the aggregates.</li> </ul> </li> </ul>
Unit of measurement	Number of hectares or beneficiaries
Comments/caveats	Forestry area covered by environment/climate commitments and

<sup>&</sup>lt;sup>5</sup> If Member States apply e.g. a maximum number of hectares paid potentially leading to divergences between the area paid and the coverage of the commitments, the full area determined after controls and before applying any limits is to be reported in the aggregate without double counting.

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

# Commitments on afforested land on UAA are to be reported under O.15. Area under organic commitments shall be reported under O.17. When the payment is exceptionally granted as a lump sum, Member States should also collect the number of hectares for the result indicators and for the aggregated output.

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.15 Number of hectares (forestry) or number of other units covered by environment/climate commitments going beyond mandatory requirements
Definition	The total number of hectares (forestry) or other units (such as trees) covered by environment/climate commitments going beyond mandatory requirements specified in the CAP Strategic Plans for which a payment was made in the Financial Year concerned.
Types of intervention concerned	The following types of interventions are concerned:  • Environmental, climate and other management commitments (Article 65): Payments for forest environment/climate commitments.
Methodology	The number of hectares or other units paid in the Financial Year concerned, shall be reported <b>per unit amount</b> .  If only a partial payment was made in the Financial Year concerned, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:</li> <li>The total number of hectares paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> <li>The number of hectares (forestry) under environmental or climate commitments going beyond mandatory requirements. If commitments are paid per other units than hectares, the covered number of hectares should nevertheless be accounted in the aggregate.</li> <li>Total number for each supported unit (other than hectares) under environmental or climate commitments going beyond mandatory requirements</li> </ul>
	For these aggregates, there should be no double counting: i.e. where the same hectare benefits from support under multiple environmental or climate commitments, that hectare should be counted only once for the aggregate.      Units are accounted in full in the aggregates
Unit of measurement  Comments/caveats	Number of hectares, trees  Commitments related to the maintenance (and thus not going beyond mandatory requirements) for afforestation and agroforestry are to be reported under O.16.

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.16 Number of hectares or number of other units under maintenance commitments for afforestation and agroforestry
Definition	The total number of hectares (forestry) or other units (such as trees) covered by maintenance commitments for afforestation and agroforestry specified in the CAP Strategic Plans for which a payment was made in the Financial Year concerned.
Types of intervention concerned	The following types of interventions are concerned:  • Environmental, climate and other management commitments  (Article 65): Payments for maintenance commitments for afforestation and agroforestry
Methodology	The number of hectares or other units paid in the Financial Year concerned, shall be reported <b>per unit amount</b> .  If only a partial payment was made in the Financial Year concerned, only a
	partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:</li> <li>The total number of hectares paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> <li>The number of hectares (forestry) under commitments. If commitments are paid per other units than hectares, the covered number of hectares should nevertheless be accounted in the aggregate.</li> <li>Total number for each supported unit (other than hectares) under maintenance commitments for afforestation and agroforestry</li> </ul>
	Remark:  - For these aggregates, there should be no double counting: i.e. where the same hectare benefits from support under multiple environmental or climate commitments, that hectare should be counted only once for the aggregate.  - Units are accounted in full in the aggregates
Unit of measurement	Number of hectares, trees
Comments/caveats	Forest environment and climate commitments going beyond mandatory requirements are to be reported under O.15

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.17 Number of hectares or number of other units with support for organic farming
Definition	The total number of hectares with support for organic farming specified in the CAP Strategic Plans for which a payment was made in the Financial Year concerned.  In special cases, if the support is granted as a lump sum, a number of beneficiaries will be reported.
Types of intervention concerned	<ul> <li>The following types of interventions are concerned:</li> <li>Environmental, climate and other management commitments         (Article 65): payments for commitments to convert to or maintain organic farming practices.     </li> </ul>
Methodology	The number of hectares or other units paid in the Financial Year concerned, shall be reported <b>per unit amount</b> .  If only a partial payment was made in Financial Year concerned, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	The following aggregates should be provided:  The total number of hectares paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)  Total number of hectares under organic farming (the area under commitments <sup>6</sup> )  Total number for each supported unit (other than hectares) with support for organic farming  Remark
	For the aggregates, there should be no double counting. Units are accounted in full in the aggregates If support is paid per other units than hectares, the covered number of hectares should nevertheless be accounted in the aggregate.
Unit of measurement	Number of hectares or beneficiaries
Comments/caveats	

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

<sup>&</sup>lt;sup>6</sup> If Member States apply e.g. a maximum number of hectares paid potentially leading to divergences between the area paid and the coverage of the commitments, the full area determined after controls and after applying limits is to be reported in the aggregate without double counting.

Indicator name	O.18 Number of livestock units (LU) covered by support for animal welfare, health or increased biosecurity measures
Definition	The number of livestock units (LU) covered by management commitments for animal welfare, health or increased biosecurity measures specified in the CAP Strategic Plans for which a payment was made in the Financial Year concerned.
Types of intervention concerned	The following types of interventions are concerned:  • Environmental, climate and other management commitments paid per LU (Article 65): animal welfare commitments
Methodology	The number of Livestock units (LU) paid in the Financial Year concerned, shall be reported <b>per unit amount</b> .  In case within one intervention several unit amounts are defined, the number of LU paid <b>per unit amount</b> shall be reported.
	If only a partial payment was made in the Financial Year concerned, only a partial output is to be reported (see cover note).
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:         <ul> <li>The total number of LU paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> <li>The number of LU under commitments for animal welfare, health or increased biosecurity measures (without double counting)</li> </ul> </li> </ul>
	Remark For the aggregates LU are accounted in full and there should be <u>no double</u> counting.
Unit of measurement	Number of LU
Comments/caveats	The coefficients to convert animal numbers in Livestock Units are available in the cover note.
	Investments related to animal welfare, animal health and biosecurity shall be reported under O.20.

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.19 Number of operations or units supporting genetic resources
Definition	The total number of operations supporting genetic resources, livestock units (LU) of endangered breeds and hectares of endangered plant varieties covered by supported management commitments paid in the Financial Year concerned.
Types of intervention concerned	Environmental, climate and other management commitments     (Article 65): payments for endangered breeds/plants varieties and genetic resources.
Methodology	The number of operations, LU and hectares paid in the Financial Year concerned, shall be reported <b>per unit amount</b> .
	If only a partial payment was made in Financial Year concerned, only a partial output is to be reported (see cover note).
Methodology for the aggregated values	The following aggregates should be provided:  - The total number of operations or units paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)  - The total number of operations of genetic resources supported  - The total number of hectares of endangered plant varieties supported  - The total number of LU of endangered breeds supported  Remark  For the aggregates, there should be no double counting.  Units are accounted in full in the aggregates.
Unit of measurement	Number of relevant unit: operations, LU or hectares
Comments/caveats	The coefficients to convert animal numbers in Livestock Units are available in the cover note.

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.20 Number of supported on-farm productive investment operations or units
Definition	The total number of supported on-farm productive investments operations or other units for which a payment (grants, financial instruments <sup>7</sup> or a combination of both) was made in the Financial Year concerned.
Types of interventions concerned	The following types of interventions are concerned:  • Investments (Article 68)
Methodology	The number of supported on-farm productive investments operations or other units for which payments were made in the Financial Year concerned shall be reported <b>per average unit amount.</b> If one or more instalments are paid before the final payment for an
	operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:         <ul> <li>The total number of supported on-farm productive investment operations or units by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined)</li> <li>The total number of supported on-farm productive investment operations (this aggregate covers all operations, included those paid in other units)</li> <li>The total number for each supported unit (other than operation) for on-farm productive investments.</li> </ul> </li> </ul>
	Remark: For the aggregates, there should be <u>no double counting</u> . For example, operations for which beneficiaries benefit of a combination of installation grant and financial instruments should be counted only once in the total. Units are accounted in full in the aggregates.
Unit of measurement	Number of investment operations or units
Comments/caveats	In their CAP plans, MS should link their interventions to those output indicators they consider relevant. Generally, on-farm investments are related to agricultural activities. Productive investments generally lead to an increase in profitability or value. In the majority of cases, it will be evident to which category an investment belongs to. However, where an investment could be classified as either on-farm or off-farm, the Commission will accept the classification proposed by the MS.

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

<sup>&</sup>lt;sup>7</sup> In case of guarantee financial instruments, guarantee commitments linked to disbursed loans.

Indicator name	O.21 Number of supported on-farm non-productive investment operations or units
Definition	The total number of supported on-farm non-productive investment operations or other units for which a payment was made in the Financial Year concerned.
Types of interventions	The following types of interventions are concerned:
concerned	Investments (Article 68)
Methodology	The number of supported on-farm non-productive investment operations or other units for which payments have been made in the Financial Year concerned shall be reported <b>per average unit amount</b> .  If one or more instalments are paid before the final payment for an
	operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:         <ul> <li>The total number of supported non-productive investment operations or units by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined)</li> <li>The total number of supported non-productive investment operations (this aggregate covers all operations, included those paid in other units)</li> <li>The total number for each supported unit (other than operation) for on-farm non-productive investments.</li> </ul> </li> </ul>
Unit of measurement	Remark:  Operations for which beneficiaries benefit of a combination of installation grant and financial instruments should be counted only once in the total.
Onit of measurement	Number of investment operations or units
Comments/caveats	In general, on-farm investments are related to agricultural activities. Off-farm non-productive investments are to be reported under O.23. However, where an investment could be classified as either on-farm or off-farm, the Commission will accept the classification proposed by the MS.
	Generally, non-productive investments are investments that do not lead to any significant increase in value or profitability. Typically, they aim at purely environmental improvements and are linked to the achievement of agri-environment-climate objectives set out in points (d), (e) and (f) of Article. 6(1).
	Examples would be the creation and/or restoration of landscape features, such as wetlands, hedges, dry-stone walls and traditional boundaries, or the creation and/or restoration of habitat or landscape elements, such as heathland, species-rich grassland or floristically enhanced grass margins.

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.22 Number of supported infrastructure investment operations or units
Definition	The total number of supported investments in infrastructure and basic services in rural areas for which a payment (grants, financial instruments <sup>8</sup> or a combination of both) was made in the Financial Year concerned.
Types of interventions concerned	The following type of interventions is concerned:  • Investments (Article 68)
Methodology	The number of supported infrastructure operations or other units for which payments were made in the Financial Year concerned shall be reported <b>per average unit amount</b> .
	If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:</li> <li>The total number of supported infrastructure operation or units by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined)</li> <li>The total number of supported basic services and infrastructure investment operations (this aggregate covers all operations, included investments paid in other units)</li> <li>The total number for each supported unit (other than operation) for investments in infrastructure and local services.</li> </ul>
	Remark:  Operations for which beneficiaries benefit of a combination of installation grant and financial instruments should be counted only once in the total.
Unit of measurement	Number of investment operations or units
Comments/caveats	

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

<sup>&</sup>lt;sup>8</sup> In case of guarantee financial instruments, guarantee commitments linked to disbursed loans.

Indicator name	O.23 Number of supported off-farm non-productive investment operations or units
Definition	The total number of supported off-farm non-productive investment operations or other units for which a payment was made in the Financial Year concerned.
Types of interventions concerned	The following types of interventions are concerned:  • Investments(Article 68)
Methodology	The number of supported off-farm non-productive investment operations or other units for which payments have been made in the Financial Year concerned shall be reported <b>per average unit amount</b> .
	If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:         <ul> <li>The total number of supported off-farm non-productive investment operations or units by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined)</li> <li>The total number of supported off-farm non-productive investment operations (this aggregate covers all operations, included those paid in other units)</li> <li>The total number for each supported unit (other than operation) for off-farm non-productive investments.</li> </ul> </li> <li>Remark:         <ul> <li>Operations for which beneficiaries benefit of a combination of installation grant and financial instruments should be counted only once in the total.</li> </ul> </li> </ul>
Unit of measurement	Number of investment operations or units
Comments/caveats	On-farm non-productive investments are to be reported under O.21. In general, non-productive investments are investments that do not lead to any significant increase in value or profitability. Typically, they aim at purely environmental improvements and are linked to the achievement of agri-environment-climate objectives set out in points (d), (e) and (f) of Article. 6(1). Examples would be the creation and/or restoration of landscape features, such as wetlands, hedges, dry-stone walls and traditional boundaries, or the creation and/or restoration of habitat or landscape elements, such as heathland, species-rich grassland or floristically enhanced grass margins.

This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.24 Number of supported off-farm productive investment operations or units
Definition	The total number of supported off-farm productive investment operations or other units for which a payment (grants, financial instruments <sup>9</sup> or a combination of both) that was made in the Financial Year concerned.
Types of intervention concerned	The following types of interventions are concerned:  • Investments (Article 68)
Methodology	The number of supported off-farm productive investment operations or other units for which payments were made (advances excluded) in the Financial Year concerned shall be reported <b>per average unit amount</b> .
	If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:</li> <li>The total number of supported off-farm productive investment operations or units by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined)</li> <li>The total number of supported off-farm productive investment operations (this aggregate covers all operations, included those paid in other units)</li> <li>The total number for each supported unit (other than operation) for off-farm productive investments.</li> <li>Remark:</li> <li>Operations for which beneficiaries benefit of a combination of installation</li> </ul>
Unit of measurement	grant and financial instruments should be counted only once in the total.  Number of investment operations or units
Comments/caveats	In their CAP plans, MS should link their interventions to those output indicators they consider relevant. Generally, off-farm investments are related to non-agricultural activities. An investment is productive if it leads to an increase in profitability or value. In the majority of cases, it will be evident to which category an investment belongs. However, where an investment could be classified as either on-farm or off-farm, the Commission will accept the classification proposed by the MS.

<sup>&</sup>lt;sup>9</sup> In case of guarantee financial instruments, guarantee commitments linked to disbursed loans

Indicator name	O.25 Number of young farmers receiving installation support
Definition	The total number of young farmers receiving installation support (grants, financial instruments <sup>10</sup> or a combination of both) under one or more interventions specified in the CAP Strategic Plan in the Financial Year concerned.
Types of interventions concerned	The following type of interventions is concerned:  • Installation of young farmers, new farmers and rural business start-up (Article 69): the installation of young farmers (Article 69(2)(a))
Methodology	The number of young farmers supported in the Financial Year concerned, shall be reported <b>per unit amount</b> .  If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	The following aggregates should be provided:  - The total number of young farmers granted installation support by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)  - The number of young farmers granted installation support (without double counting)  Remark:  Beneficiaries of a combination of installation grant and financial instruments should be counted only once in the total.
Unit of measurement	Number of young farmers
Comments/caveats

Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

 $<sup>^{\</sup>rm 12}$  In case of guarantee financial instruments, guarantee commitments linked to disbursed loans

Indicator name	O.28 Number of supported Producer Groups/Organisations
Definition	The number of producer groups/organisations for which a payment under cooperation was made in the Financial Year concerned under Rural Development policy.
Types of interventions	The following type of interventions is concerned:
concerned	Cooperation (Article 71)
	Paid to producer groups/organisations, where they are the beneficiary of cooperation support (except other forms of cooperation such as cooperations of producer groups/ organisations reported under O.32).
Methodology	The number of producer groups/organisations supported under Article 71 and paid in the Financial Year concerned, shall be reported per intervention.
	In case within one intervention several unit amounts are defined, the number of producer groups/organisations paid per unit amount shall be reported.
	If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:</li> <li>The total number of producer groups/organisations receiving support by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> <li>The number of producer groups/organisations receiving support (without double counting)</li> </ul>
Unit of measurement	Number of producer groups/organisations
Comments/caveats	The indicator covers (in accordance with Article 71(4))
	- Beneficiaries of support as an overall amount (covering the cost of cooperation as well as the cost of the projects and operations implemented), as well as
	<ul> <li>Beneficiaries of support covering only the cost of the operation but using funds from other types of interventions for project implementation (e.g. investments). In this case, however, the project implementation is covered by the corresponding indicators (e.g. for investments), and not by this indicator.</li> <li>Producer Organisations setting up an operational fund/program are captured by O.35 and should thus not be included in O.28.</li> </ul>
	- Producer Organisations receiving support only through joint cooperation are not included here (but in 0.32).

This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.30 Number of supported operations or units for generational renewal (excluding installation support)
Definition	The number of operations or other units for generational renewal for which a payment under cooperation was made in the Financial Year concerned.
Types of intervention concerned	The following type of interventions is are concerned:  • Cooperation (Article 71)
Methodology	The number of operations or other units for generational renewal paid under Article 71 in the Financial Year concerned shall be reported <b>per unit amount</b> If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided: <ul> <li>The total number of operations or units with support for generational renewal by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> <li>The total number of operations with support for generational renewal (this aggregate covers all operations, included those paid in other units)</li> <li>A total number for each supported unit (other units potentially used to apply simplified cost approaches) for generational renewal.</li> </ul> </li> </ul>
Unit of measurement	Number of operations or other units
Comments/caveats	<ul> <li>The indicator covers (in accordance with Article 71(4))</li> <li>beneficiaries of support as an overall amount (covering the cost of cooperation as well as the cost of the projects and operations implemented), as well as</li> <li>beneficiaries of support covering only the cost of the operation but using funds from other types of interventions for project implementation (e.g. investments). In this case, however, the project implementation is covered by the corresponding indicators (e.g. for investments), and not by this indicator.</li> </ul>

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.31 Number of supported local development strategies (LEADER) or preparatory actions
Definition	The number of local development strategies (prepared or implemented) or preparatory actions for which a payment under cooperation was made in the Financial Year concerned.
Types of intervention	The following type of interventions are concerned:
concerned	Cooperation (Article 71)
Methodology	The number of local development strategies or preparatory actions for which a payment was made in the Financial Year concerned shall be reported <b>per unit amount</b> .
	Cooperation support to implement local development strategies is paid progressively over the programming period. The output reported should correspond to the share of the amount paid in the Financial Year concerned in the committed amount to be paid for that local development strategies.  E.g. for a payment of 25% of the committed amount, 0.25 of output is to be reported.
	In the case of financial instruments (FI), the output indicator shall report the number of final recipient projects receiving FI support under the Leader intervention.
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:         <ul> <li>The total number of local development strategies of preparatory actions paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> <li>The total number of local development strategies for which support for preparatory action was paid</li> <li>The total number of local development strategies whose implementation was supported</li> <li>Data reported for FIs under O.31 should not be taken into account.</li> </ul> </li> </ul>
Unit of measurement	Number of local development strategies or preparatory actions [In case of Fls, number of final recipient projects]
Comments/caveats	<ul> <li>The indicator covers (in accordance with Article 71(4))</li> <li>beneficiaries of support as an overall amount (covering the cost of cooperation as well as the cost of the projects and operations implemented), as well as</li> <li>beneficiaries of support covering only the cost of the operation but using funds from other types of interventions for project implementation (e.g. investments). In this case, however, the project implementation is covered by the corresponding indicators (e.g. for investments), and not by this indicator.</li> </ul>

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.32 Number of supported other cooperation operations or units (excluding EIP reported under O.1)
Definition	The number of other forms of cooperation operations or other units for which a payment under cooperation was made in the Financial Year concerned (excluding EIP operational groups reported under O.1 and all cooperation interventions reported under O.28 to O.31)
Types of intervention concerned	The following type of intervention is concerned:  • Cooperation (Article 71)
Methodology	The number of other form of cooperation operations or other units paid in the Financial Year concerned, shall be reported <b>per unit amount</b> (excluding EIP operational groups reported under O.1 and all cooperation groups reported under O.28 to O.31).  If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note).
Methodology for the aggregated values	<ul> <li>The following aggregates should be provided:         <ul> <li>The total number of other cooperation operation or units paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)</li> <li>The total number of other cooperation group operations. (this aggregate covers all operations, included those paid in other units)</li> <li>A total number for each supported unit (other units potentially used to apply simplified cost approaches) for other cooperation.</li> </ul> </li> </ul>
Unit of measurement	Number of cooperation operations or other units
Comments/caveats	<ul> <li>The indicator covers (in accordance with Article 71(4))</li> <li>beneficiaries of support as an overall amount (covering the cost of cooperation as well as the cost of the operations implemented), as well as</li> <li>beneficiaries of support covering only the cost of the operation but using funds from other types of interventions for implementation (e.g. investments). In this case, however, the implementation is covered by the corresponding indicators (e.g. for investments), and not by this indicator.</li> </ul>

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Indicator name	O.33 Number of supported training, advice and awareness-actions or units
Definition	The total number of information, knowledge exchange, training, advice, innovation promotion and awareness actions (including setting-up of advisory services) or other units (e.g. hours and farmers) carried out for farmers and non-farmers (excluding advice actions reported under O.2) in the Financial Year concerned.
Types of intervention	The following types of interventions are concerned:
concerned	Knowledge exchange and information (Article 72)
Methodology	The number of information, training, advice and awareness actions (including setting-up) or other units for which a payment was made in the Financial Year concerned shall be reported <b>per unit amount</b>
	In the case of financial instruments (FI), the output indicator shall report the number of final recipients receiving FI support under the Knowledge exchange and information type of intervention.
	If one or more instalments are paid before the final payment for an action, only a partial output is to be reported (see cover note).
Methodology for the	The following aggregates should be provided :
aggregated values	<ul> <li>The total number of information, knowledge exchange, training, advice, innovation promotion and awareness actions or units paid by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined)</li> </ul>
	- Total number of information, knowledge exchange, training, advice, innovation promotion and awareness actions carried out (this aggregate covers all actions, included those paid in other units)
	<ul> <li>A total number for each supported unit (other than action) for information, knowledge exchange, training, advice, innovation promotion and awareness.</li> </ul>
Unit of measurement	Number of actions or other units (e.g. hours or farmers)
Comments/caveats	Plans, studies and awareness actions with the aim of knowledge exchange and spreading of information are accounted under O.33.

## DISCLAIMER

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Indicator name	O.34 <sup>MO</sup> Number of hectares under environmental practices (synthesis indicator on physical area covered by conditionality, eco-schemes, agriand forest environmental and climate management commitments)
Definition	The number of hectares under conditionality with regard to GAEC and other interventions promoting practices beneficial for environment and climate with CAP support.
Types of intervention* concerned <sup>13</sup>	All agricultural and forestry area under practices beneficial for environment and climate due to:  • Conditionality with regard to GAEC (Annex III)  • Eco-schemes (Article 28)  • Agri-and forest- environmental, climate and other management commitments (Article 65)  • Sectoral types of intervention:  ○ For F&V: Article 43(1),(d) to (j) and (l);  ○ For wine sector: Article 52(1)(a);  ○ For hops, olive oil and table olives and 'other sectors' as defined in Article 39: Article 60(1)(a)(i), (ii), (iii), (viii), (ix), (ix), (xi).
Methodology	<ul> <li>Total number of hectares subject to conditionality and for which interventions listed above were paid in the Financial year concerned. Hectares are accounted only once for this indicator (i.e. physical area, without double counting).</li> <li>Three sub-indicators shall be calculated according to definition of the indicator and the methodology:         <ul> <li>Total agricultural area under environmental practices (the area under conditionality or under voluntary commitments for the interventions listed above)</li> <li>Total agricultural area under voluntary commitments for the interventions listed above (i.e. excluding the area only under GAEC)</li> <li>Total forestry area paid for the interventions listed above</li> </ul> </li> </ul>
Unit of measurement Comments/caveats	Number of hectares  To ease the geospatial location and thus a calculation without double counting, the area taken into account is the total area under commitment, i.e. if a Member State applies a maximum share of hectares paid, the whole area under commitment is accounted.
	All eligible area subject to conditionality shall be reported under this indicator. In case the Member State will apply a pro rata system on permanent grassland, only eligible areas (e.g. after the application of pro

 $<sup>^{\</sup>rm 13}$  Conditionality is included in this output indicator although it is not an intervention.

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

rata) should be reported.

There is a risk of double counting between sectoral types of interventions and other interventions, as sectoral types of interventions are not in IACS (except for wine). However, the risk of double counting is estimated to be low, because often the 2 types of support are granted on different farms. Therefore, the hectares concerned under sectoral types of interventions should simply be added to the hectares under other area-based payments.

The same may be true of management commitments undertaken by beneficiaries who are not farmers.

This indicator is not used for performance clearance.

#### **DISCLAIMER**

This document has been prepared by the Commission services as guidance to the Member States or to any other parties (e.g. for the purpose of drafting the national CAP Strategic Plans). This document is not a final document, as it is based on the recent political agreement and it has no legal binding value. Please note that the ordinary legislative procedure is not finished and the Regulation not adopted yet.

Indicator name	O.35 Number of supported operational programmes
Definition	Total number of operational programmes per sector for which payments relating to interventions under the same operational programme were made in the Financial Year concerned.
Types of intervention concerned	<ul> <li>The following sectoral types of interventions are concerned:</li> <li>For F&amp;V sector: Article 43</li> <li>For hops, olive oil and table olives sector and 'other sectors' as defined in Article 39: Article 60</li> </ul>
Methodology	The number of operational programmes for which a payment was made in the Financial Year concerned shall be reported <b>per average unit amount</b> .
	If one or more instalments are paid before the final payment for an operational programme, only a partial output is to be reported (see cover note).
Methodology for the aggregated values	Following aggregates should be provided:  - The total number of supported operational programmes paid by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined)  Total number of operational programmes per sector
Unit of measurement	Number of operational programmes
Comments/caveats	This indicator measures the total number of operational programmes per sector implemented by producer organisations, associations of producer organisations or transnational producer organisations or associations of producer organisations during the year in the concerned MS.

Indicator name	O.36 Number of actions or units supported in the wine sector
Definition	The total number of actions or other units in the wine sector paid in the Financial Year concerned.
Types of intervention concerned	The following types of sectoral types of interventions are concerned (Article $52(1)(a) - (i)$ ):
	<ul> <li>a) restructuring and conversion of vineyards, consisting of one or more of the following:</li> </ul>
	(i)- varietal conversions, also by means of grafting-on, including to improve the quality or environmental sustainability, for reasons of adaptation to climate change or for the enhancement of genetic diversity,
	(ii)-relocation of vineyards,
	(iii)- replanting of vineyards where that is necessary following mandatory grubbing up for health or phytosanitary reasons on the instruction of the Member State competent authority,
	(iv)- improvements to vineyard management techniques, in particular the introduction of advanced systems of sustainable production including the reduction of the use of pesticides, but excluding the normal renewal of vineyards consisting of replanting with the same grape variety according to the same system of vine cultivation, when vines have to come to the end of their natural life;
	<ul> <li>b) investments in tangible and intangible assets in wine-growing farming systems, excluding operations relevant to the type of intervention provided for in point (a), processing facilities and winery infrastructure, as well as marketing structures and tools;</li> </ul>
	<ul> <li>c) green harvesting meaning the total destruction or removal of grape bunches while still in their immature stage, thereby reducing the yield of the relevant area to zero and excluding non-harvesting comprising of leaving commercial grapes on the plants at the end of the normal production cycle;</li> </ul>
	<ul> <li>d) harvest insurance against income losses as a consequence of adverse climatic events assimilated to natural disasters, adverse climatic events, animals, plant diseases or pest infestations;</li> </ul>
	e) tangible and intangible investments in innovation consisting of development of innovative products, including products from and by-products of wine making, wine products' processes and technologies and its digitalisation, as well as other investments adding value at any stage of the supply

- chain, including for knowledge exchange and contribution to adaptation to the climate change;
- f) advisory services, in particular concerning the conditions of employment and employer obligations as well as occupational health and safety;
- g) distillation of by-products of wine making carried out in accordance with the restrictions laid down in Part II Section D, of Annex VIII to Regulation (EU) No 1308/2013;
- h) information actions concerning Union wines carried out in Member States encouraging responsible consumption of wine or promoting Union quality schemes covering designations of origin and geographical indications;
- actions undertaken by interbranch organisations recognised by Member States in the wine sector in accordance withto Regulation (EU) No 1308/2013 aiming at enhancing the reputation of Union vineyards by promoting wine tourism in production regions;
- j) actions undertaken by interbranch organisations recognised by Member States in the wine sector in accordance withto Regulation (EU) No 1308/2013 aiming at improving market knowledge;
- k) promotion carried out in third countries, consisting of one or more of the following actions and activities aimed at improving the competitiveness of the wine sector, and the opening, diversification or consolidation of the markets:
  - public relations, promotion or advertisement actions, in particular highlighting the high standards of the Union products, especially in terms of quality, food safety or the environment;
  - ii. participation at events, fairs or exhibitions of international importance;
  - iii. information campaigns, in particular on the Union quality schemes concerning designations of origin, geographical indications and organic production;
  - iv. studies of new markets, necessary for the expansion of market outlets;
  - v. studies to evaluate the results of the information and promotion measures;
  - vi. preparation of technical files, including laboratory tests and assessments, concerning oenological practices, phytosanitary and hygiene rules, as well as other third country requirements for import of

	products of the wine sector, to facilitate access to third country markets;
	<ul> <li>temporary and degressive assistance to cover administrative costs of setting up of mutual funds;</li> </ul>
	m) Investments in tangible and intangible assets aiming to enhance the sustainability of wine production by:
	i. improving the use and management of water;
	ii. converting to organic production;
	iii. introducing integrated production techniques;
	iv. purchasing equipment for precision or digitised production methods;
	v. contributing to soil conservation and enhancement of soil carbon;
	vi. creating or preserving habitats favourable for biodiversity or maintaining landscape, including the conservation of historical features; or
	vii. reducing waste production and improving waste management.
Methodology	The number of actions or other units in the Financial Year concerned shall
	be reported <b>per intervention</b> .
	In case within one intervention several unit amounts are defined, the
Methodology for the	number of operations <b>per unit amount</b> shall be reported.  The following aggregate should be provided:
Methodology for the aggregated values	- The total number of units paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined)
	- The total number of wine sector beneficiaries of CAP support, without double counting
	- Total number of actions in the wine sector carried out (this aggregate covers all actions, included those paid in other units)
	- The total number of hectares supported for restructuring and
	conversion of vineyards
	<ul> <li>The total number of hectares supported for green harvesting</li> <li>The total number of tonnes distilled</li> </ul>
	- The total number of hectolitres distilled
Unit of measurement	Number of hectares for interventions under letters a, c above.
	Number of tonnes or hectolitres for interventions under letters g above.
	Number of actions for interventions under letters b, d, e, f, h, I, j, k, I, m above.
	Number of beneficiaries for the aggregate

Indicator name	O.37 Number of actions or other units for beekeeping preservation/improvement
Definition	The total number of actions or other units for beekeeping
Deminion	preservation/improvement paid in the Financial Year concerned.
Types of intervention	The following types of sectoral types of interventions are concerned:
concerned	For apiculture sector and the Union financial assistance ((Article))
Concerned	49(1) (a-h)):
	<ul> <li>(a) advisory services, technical assistance, training, information and exchange of best practices, including through networking, for beekeepers and beekeepers' organisations;</li> <li>(b) investments in tangible and non-tangible assets, as well as</li> </ul>
	other actions, including for: (i) combatting beehive invaders and diseases, in particular
	varroasis;
	<ul> <li>(ii) preventing damage caused by adverse climatic events and promoting the development and use of management practices adapted to changing climate conditions;</li> <li>(iii) restocking of beehives in the Union including bee breeding;</li> </ul>
	(iv) rationalising transhumance;
	(c) actions to support laboratories for the analysis of apiculture products, bee losses or productivity drops, and substances potentially toxic to bees;
	(d) actions to preserve or increase the existing number of
	beehives in the Union, including bee breeding;
	<ul> <li>(e) cooperation with specialised bodies for the implementation of research programs in the field of beekeeping and apiculture products;</li> </ul>
	<ul> <li>(f) promotion, communication and marketing including market monitoring actions and activities aimed in particular at raising consumer awareness about the quality of apiculture products;</li> </ul>
	(g) actions to enhance product quality.
Methodology	The number of actions or other units in the Financial Year concerned shall
	be reported <b>per intervention</b> .
	In case within one intervention several unit amounts are defined, the
	number of actions <b>per unit amount</b> shall be reported.
Methodology for the	The following aggregate should be provided:
aggregated values	- The total number of units paid by intervention (if relevant, i.e. when
	within one intervention several unit amounts are defined)
	- The total number of beekeepers beneficiaries of CAP support, without
	double counting (this aggregate covers all interventions, included
	those paid in other units)
	- The total number of beehives supported under letters babove
