→ Data quality and availability as biggest evaluation challenge!

Lessons from the former period

MTE was a wake up call

Baselines were still missing

Consequences for sound ex post evaluations of RDP 2007-2013

Operation database
– tool also for evaluation?

Operation database:

- Monitoring, required by DG Agri: data item list, output and target indicators,

- Data sources: mainly application forms and payment claims (also business plans, various reports),

- Opportunity to collect additional data & information via existing system – efficiency of using existing resources also for evaluation

Time is the issue!
Baselines!

What are the key questions?

1. How can we make the **best use of the operations database** for RDP evaluation in 2017?

2. What **further assistance** do you need to use the operations database for evaluation?

How do we organise the interactive session?

6 small groups of maximum 10 people
(see number of your group at your desk)

Discuss the above questions and note answers on the harvest-sheet (20 minutes)

Select the rapporteur and **report to plenary**
(maximum 4 minutes)

Thank you for your attention!
