FABBISOGNI

RELEVANT

Are indicators closely linked to the objectives to be reached? Are they stated at the right level – are the impact indicators really indicators of impacts and do result indicators refer to results?

ACCEPTED

Are they accepted by stakeholders?

CREDIBLE

Are they accepted externally, while being unambiguous and easy to interpret for non-experts?

ROBUST

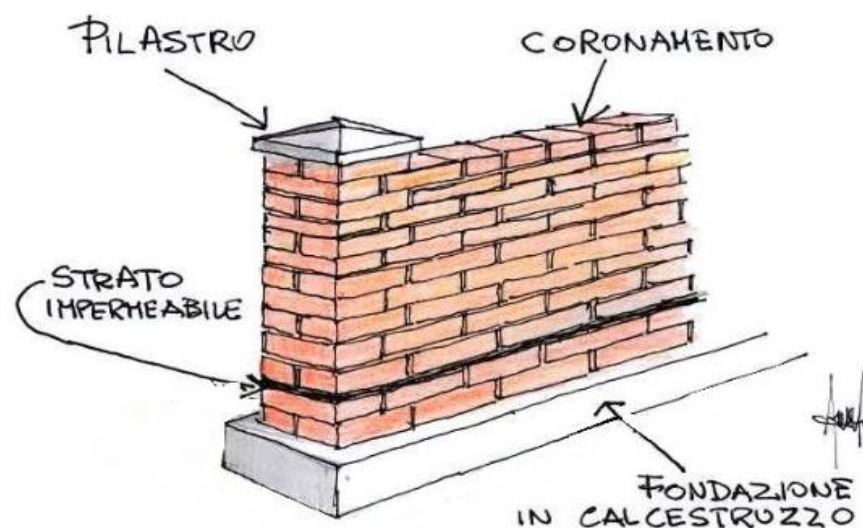

Will they continue to be usable and are they such that they cannot be manipulated easily?

EASY

Are they easy to monitor?

I dati di monitoraggio (**output e target**) sono composti da elementi registrati a livello di operazione (AdG, OP, GAL)

WD MONITORING (2014-2020) – IMPLEMENTATION REPORT TABLES

- Table A: **Committed** expenditure by measure and FA
- Table B: **Realised** output indic. by measure and FA
- Table C: Breakdown type of area, gender, age, FT, ...
- Table D: Progress towards **targets**
- Table E: Monitoring of transitional measures
- Table F: Achievement of the **performance framework**

Committed = Total amount committed when the application is approved.

For multi annual comm., the annual claimed expenditure is considered committed when the claim is submitted.

Committed expenditure: approval of application stage; only by measure and by focus area (table A).

Realised = Total amount of expenditure made by the MS for completed operations (last payment made).

Realised expenditure/outputs: final/annual payment stage (completed); breakdown (tables B C)

No payments are reported until the operation is completed

Measures	Committed Table A	Realized Tables B1, B2, C
1	Application approved	When operation completed (set of trainings), final payment made
4	Application approved	When operation completed, last payment
7	Application approved	When operation completed, last payment
19	Preparatory works: payment request Running costs, LDS and cooperation projects: when LAG is selected. Unless cooperation projects are selected separately (when selection is approved)	Preparatory works: when payments are made Running cost: payment made When LDS/cooperation operation completed: last payment
10	Annual payment claimed	Annual payment made during the reporting year Area after on the spot checks having received payments

O.4 Number of holdings/beneficiaries supported¶

Title and definition	Measures concerned	Source of data, timing of reporting
Nbr. of holdings/beneficiaries supported	3.1, 4.1, 5, 6, 8.1 to 8.4, 11, 12, 13, 14, 17.1	Application form, reported when completed
¶ Beneficiaries are individuals or entities other than farm holdings which received support. ¶ ¶ 3.1: number of holdings supported for new participation in quality schemes (broken down by EU schemes, national schemes, voluntary agricultural product certification schemes). For that sub-measure, completion is determined by the annual payment made, reported annually in table B3 (Art. 5 (3) of reg. 215/2014)¶ ¶ 4: only for 4.1: number of holdings supported for investments in agricultural holdings¶ ¶ 5: number of beneficiaries supported for investment in prevention or restoration (broken down by type of beneficiaries: farm holders or others)¶ ¶ 6: number of holdings or beneficiaries receiving support (broken down by business start-up aid for young farmers, business start-up aid for non-agric activities in rural areas, business start-up aid for development small farms, support for investments in creation and development of non-agricultural activities, payments for farmers eligible for the small farmers scheme who permanently transfer their holding to another farmer); out of which nr of operations supported through FI¶ ¶		

O.20 Number of LEADER projects supported

Title and definition	Measures concerned	Source of data, timing of reporting
Nbr. of LEADER projects supported	19 (art. 35 1b CPR)	Application, Reporting from LAG manager reported when completed
Number of LEADER project supported, for each project, the LAG managers identify what is the main objective of the project (by using the list of FA, the project is flagged with the most relevant FA).. To monitor the contributions of the LEADER projects to the FAs, 1 indicator per project is collected. The indicator to be collected depends on the main FA the project contributes to. List of indicators to be collected depending on the most relevant objective of the LEADER project:

Raccolta di documenti utili al calcolo degli indicatori e alla realizzazione delle RAE

In questa sezione sono resi disponibili i documenti di indirizzo comunitari e la relativa documentazione tecnica prodotta sia a livello comunitario che nazionale relativamente agli obblighi di monitoraggio e al calcolo degli indicatori nel quadro della Programmazione 2014-2020 dello

Sviluppo Rurale. È resa disponibile anche una specifica sezione che riporta le FAQ rivolte più frequentemente ai servizi della Commissione Europea, ai referenti della Rete Rurale Nazionale e al Mipaaf da parte delle amministrazioni nazionali e regionali responsabili dei PSR. Tale sezione verrà aggiornata periodicamente al fine di condividere le informazioni fra tutti coloro che sono a vario titolo coinvolti con la programmazione e l'attuazione dei PSR. Di seguito si riporta un elenco dei documenti principali, e scaricabili dalla sezione, distinti per i temi degli indicatori e delle relazioni annuali di avanzamento.
